RE: Luminant Mining Company LLC ("Luminant")
Assignment of Technical Examiner to Luminant Dockets

Dear Judge Ruberto and Judge Lebby:

Luminant Mining Company LLC has received your recent letters regarding Mr. Tim Walter's selection to fill the newly created Technical Examiner position. Luminant has no objection to Mr. Walter serving in this capacity on any of the subject proceedings as follows:

Docket No. C19-0010-SC-49-C, Bremond Mine Permit 49B Renewal/Revision
Docket No. C18-0015-SC-50-C, Kosse Mine Permit 50B Renewal/Revision
Docket No. C19-0020-SC-05-B, Thermo Mine Permit 5G, H-Area Reclamation Plan
Docket No. C14-0005-SC-04-F, Martin lake Mine Permit 4L, Phase I-III bond Release, 954.7 ac
Docket No. C15-0004-SC-34-F, Monticello Mine Permit 34F, Phase I, II, III Bond Release, 929.4 ac
Docket No. C16-0002-SC-34-F, Monticello Mine Permit 34F, Phase II, III bond Release, 418.0 ac
Docket No. C17-0005-SC-34-F, Monticello Mine Permit 34F, Phase I, II, III Bond Release 516.3 ac
Docket No. C19-0009-SC-48-F, Three Oaks Mine Permit 48C, Phase I Bond Release 301.30 ac
Docket No. C19-0019-SC-03-F, Big Brown Mine Permit 3F, Phase I-III Bond Release 592.5 ac
Docket No. C17-0004-SC-46-F, Oak Hill Mine Permit 46C, Phase I, II, III bond Release 274.5 ac

Please contact me or Mr. Scott Mills at (214) 875-9090 if there you have any questions.

Sincerely,

Sid Stroud

Re: **Docket No. C19-0020-SC-05-B**
Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34
Permit No. 5G, Monticello Thermo Mine, Hopkins County

To Whom It May Concern:

Enclosed for your information is a copy of a public notice of the above-referenced application that has been filed with the Railroad Commission of Texas. This notice is sent by Railroad Commission policy to landowners and adjoining landowners of the permit area, as well as owners of other real estate interests and other interested persons.

Please be advised that the deadline for written comments on this application is September 30, 2019. The deadline to request a hearing on the application is October 14, 2019. Comments or requests for hearing should be sent to the undersigned at the address listed on this letterhead (below). If you have no comments, no reply is required.

Sincerely,

G. B. B.

Kyle L. Lebby, Administrative Law Judge
Hearings Division

Enclosure: Public Notice of Application

RAILROAD COMMISSION OF TEXAS HEARINGS DIVISION

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. C19-0020-SC-05-B

Luminant Mining Company LLC ("Luminant"), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 ("Application"), to the Railroad Commission of Texas Surface Mining and Reclamation Division ("Commission") for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours.

The proposed changes to the postmine slopes and postmine contours will involve reclaiming and recontouring an existing earthen stockpile that will be covered with a minimum four feet of the approved suitable soil material, thus leaving an elevated land feature approximately 110-feet in height consistent with the executed Development Agreement ("Agreement") with the City of Sulphur Springs ("City"). Approval of this application would facilitate the execution of a reclamation plan prepared collaboratively with the City in support of long-term plans memorialized in said Agreement, executed by the City and Luminant in a Special City Council Meeting on October 16, 2018.

The executed Agreement is included in Supplemental Document No. 1 to the application and is recorded in the Real Property Records of Hopkins County. It is intended that the City be the ultimate end user of the acreage that is subject of Revision No. 34 after the area has been reclaimed in accordance with all applicable regulations.

This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations and provides general design plans for the H-01 Treatment Pond and H-01 Permanent Impoundment. Luminant proposes to revise the postmine land uses within the H-Area as a part of Revision No. 34 and a separate application (Revision No. 35).

A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant's mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1-volume)

Public Notice of Application
Docket No. C19-0020-SC-05-B
Luminant Mining Company LLC
Application for Revision No. 34
Permit No. 5G, Monticello-Thermo Mine

and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

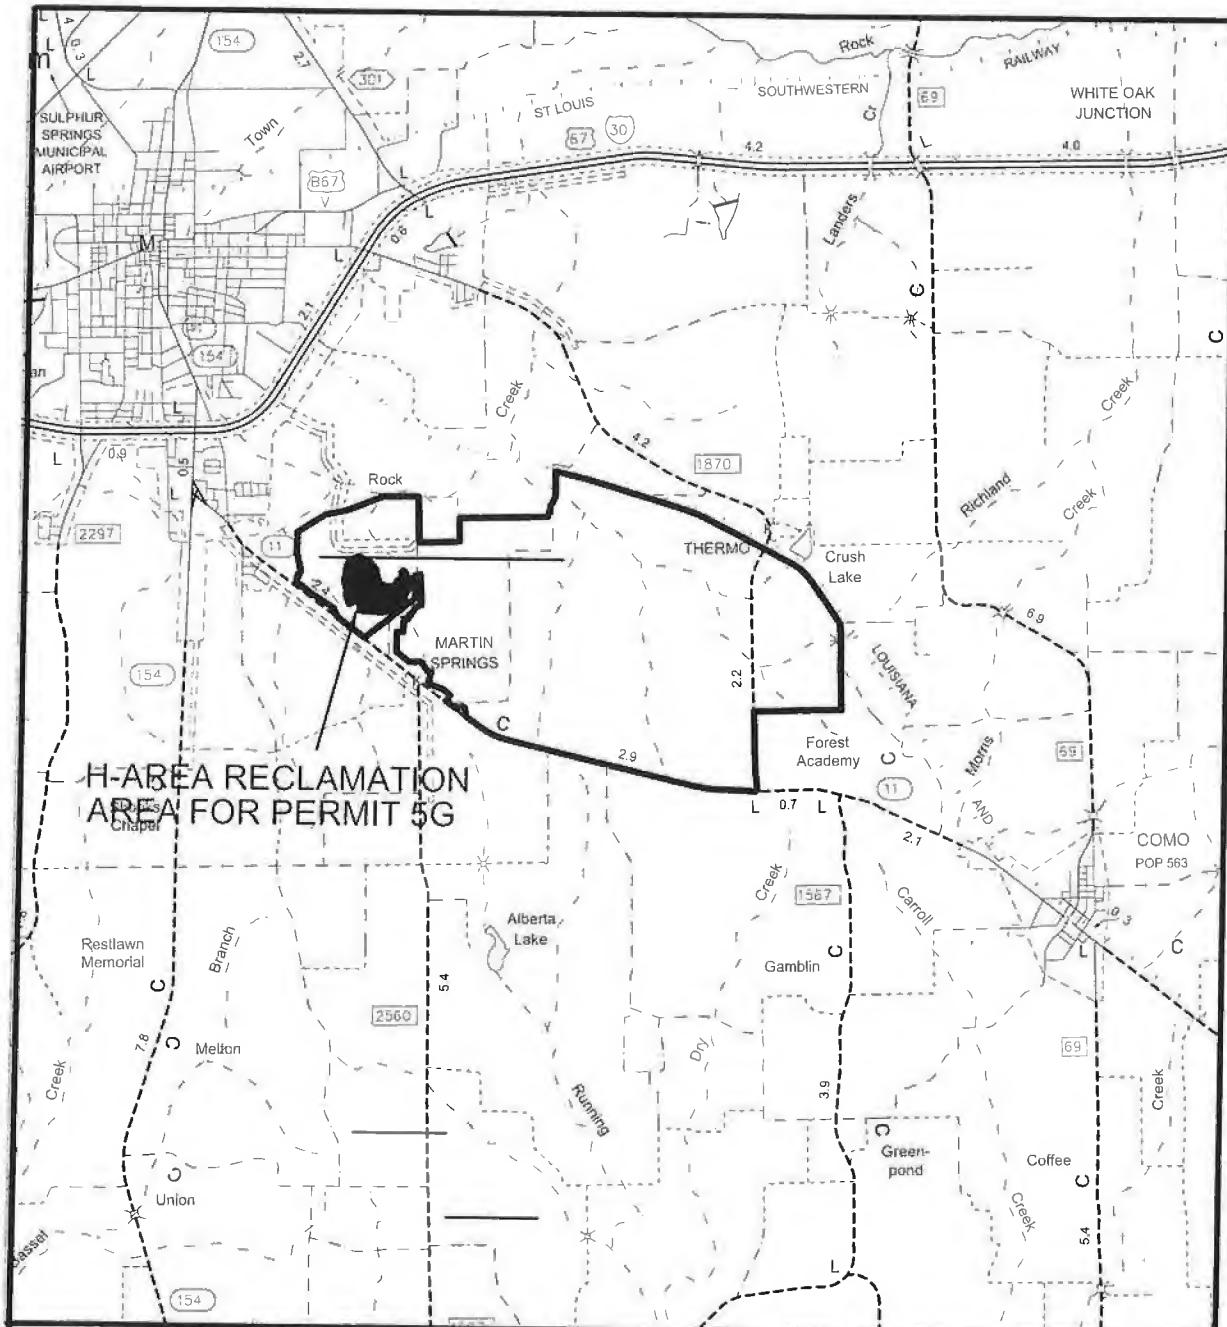

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. Permit 5G is contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5-minute Quadrangle map for Texas.

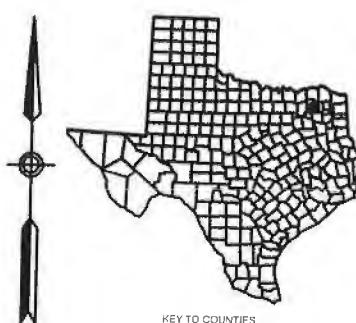

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2019) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2019). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice. All written comments, objections or requests for public hearing or informal conference on the Application should be directed to:

HEARINGS DIVISION

MEMORANDUM

TO: Records Section
Surface Mining and Reclamation Division

FROM: Kyle L. Lebby, Administrative Law Judge
Hearings Division

DATE: August 13, 2019

SUBJECT: Docket No. C19-0020-SC-05-B
Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34
Permit No. 5G, Monticello Thermo Mine, Hopkins County
Mailing of Notice of Application to Agencies and Local Authorities

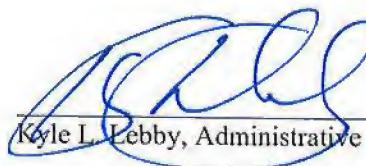

Railroad Commission
of Texas
RECEIVED

AUG 15 2019

Surface Mining Division

I hereby certify that on August 12, 2019, the attached notice of application was mailed to the attached list of state and federal agencies and local authorities. In addition to those agencies specified in §12.207(c)(1), notification was provided to the Sulphur River Basin Authority, Hopkins-Rains Soil and Water Conservation District and City Manager of Sulphur Springs pursuant to §12.207(c)(2). The notice was also sent to the Hopkins County Judge and Clerk. Each federal and state agency was sent a cover letter and request form (samples attached). All mailings were made by first-class mail.

A separate memo regarding mailing of the notice to owners of interests in lands within and adjacent to the permit area was transmitted to SMRD Records by memorandum dated August 13, 2019.

Kyle L. Lebby, Administrative Law Judge

Re: **Docket No. C19-0020-SC-05-B**
Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34
Permit No. 5G, Monticello Thermo Mine, Hopkins County

MR RICHARD A HYDE, P.E.
EXECUTIVE DIRECTOR
TX COMMISSION ON ENVIRONMENTAL QUALITY
P O BOX 13087
AUSTIN TX 78711-3087

Dear MR RICHARD A HYDE, P.E.

Luminant Mining Company LLC (Luminant) has applied to the Railroad Commission of Texas requesting to revise its surface mining permit, Permit No. 5G, for the Monticello-Thermo Mine. The application, titled Revision No. 34, proposes to revise the reclamation plan within the H-Area of the mine. The Monticello-Thermo Mine, consisting of approximately 4,506 acres, is located in Hopkins County approximately three miles southeast of the town of Sulfur Springs, Texas. Enclosed is a copy of the public notice of application which provides additional information on the application that proposes to revise post mine slopes, post mine contours and other changes to approved reclamation operations.

Public notices are being published once each week for four consecutive weeks in the *Sulphur Springs News-Telegram* beginning on August 8, 2019 and ending on August 29, 2019. Written comments, identified with the docket number shown on this letter, shall be submitted no later than 30 days following the last date of publication of the notice. The deadline for submission of comments is September 30, 2019. (The request for hearing deadline is October 14, 2019). If you request copies of any additional supplements to the application which may be filed and wish to file comments regarding supplementary materials, these comments shall be submitted no later than 10 days from the date of the transmittal of the Surface Mining and Reclamation Division Staff's Addendum to the Technical Analysis reviewing the supplement. If requested, the Administrative Law Judge may reschedule the date for submittal of comments to supplements.

To obtain a copy of the application for review, please complete and return the enclosed request form to Alexander Schoch, Interim Director, Surface Mining and Reclamation Division, Railroad Commission of Texas, P.O. Box 12967, Austin, Texas 78711-2967. You may reach the Division by phone at (512) 463-6900. Written comments shall be submitted to: Kyle L. Lebby, Administrative Law Judge, Hearings Division, at the Commission's address. For additional information, please contact David Cornett at (512) 463-1290.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Lebby".

REQUEST FORM FOR COPY OF APPLICATION

AGENCY: TX COMMISSION ON ENVIRONMENTAL QUALITY

DATE SENT TO AGENCY: August 9, 2019

(PLEASE CHECK ONE)

COPY OF APPLICATION: REQUESTED NOT REQUESTED

COMPANY NAME: Luminant Mining Company LLC

ADDRESS: 6555 Sierra Drive, Irving, Texas 75039

NAME OF APPLICATION: Revision No. 34 to Permit No. 5G

NAME OF MINE AND COUNTY/COUNTY: Monticello-Thermo Mine/Hopkins County

DATE ADMINISTRATIVELY COMPLETE: July 10, 2019

DOCKET NO.: C19-0020-SC-05-B

The Railroad Commission is required under Chapter 134, TEX. NAT. RES. CODE (Vernon Supp. 2019) to notify several governmental agencies of the permit application. Each such agency may review the permit application and submit such comments as the agency cares to make. Such comments should include an enumeration of permits and licenses required under the agency's jurisdiction. Such comments shall be made a part of the record and one copy shall be furnished to the applicant. If comments are not returned to the Commission's Hearings Division by the end of the 30-day comment period, it will be presumed that the proposed plans outlined in the permit application are acceptable to the specified state agency.

RAILROAD COMMISSION OF TEXAS HEARINGS DIVISION

PUBLIC NOTICE NOTICE OF APPLICATION FOR REVISION OF SURFACE MINING PERMIT No. 5G Monticello-Thermo Mine, Revision Application No. 34 Luminant Mining Company LLC Docket No. C19-0020-SC-05-B

Luminant Mining Company LLC ("Luminant"), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 ("Application"), to the Railroad Commission of Texas Surface Mining and Reclamation Division ("Commission") for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours.

The proposed changes to the postmine slopes and postmine contours will involve reclaiming and recontouring an existing earthen stockpile that will be covered with a minimum four feet of the approved suitable soil material, thus leaving an elevated land feature approximately 110-feet in height consistent with the executed Development Agreement ("Agreement") with the City of Sulphur Springs ("City"). Approval of this application would facilitate the execution of a reclamation plan prepared collaboratively with the City in support of long-term plans memorialized in said Agreement, executed by the City and Luminant in a Special City Council Meeting on October 16, 2018.

The executed Agreement is included in Supplemental Document No. 1 to the application and is recorded in the Real Property Records of Hopkins County. It is intended that the City be the ultimate end user of the acreage that is subject of Revision No. 34 after the area has been reclaimed in accordance with all applicable regulations.

This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations and provides general design plans for the H-01 Treatment Pond and H-01 Permanent Impoundment. Luminant proposes to revise the postmine land uses within the H-Area as a part of Revision No. 34 and a separate application (Revision No. 35).

A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant's mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1-volume)

Public Notice of Application
Docket No. C19-0020-SC-05-B
Luminant Mining Company LLC
Application for Revision No. 34
Permit No. 5G, Monticello-Thermo Mine

and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

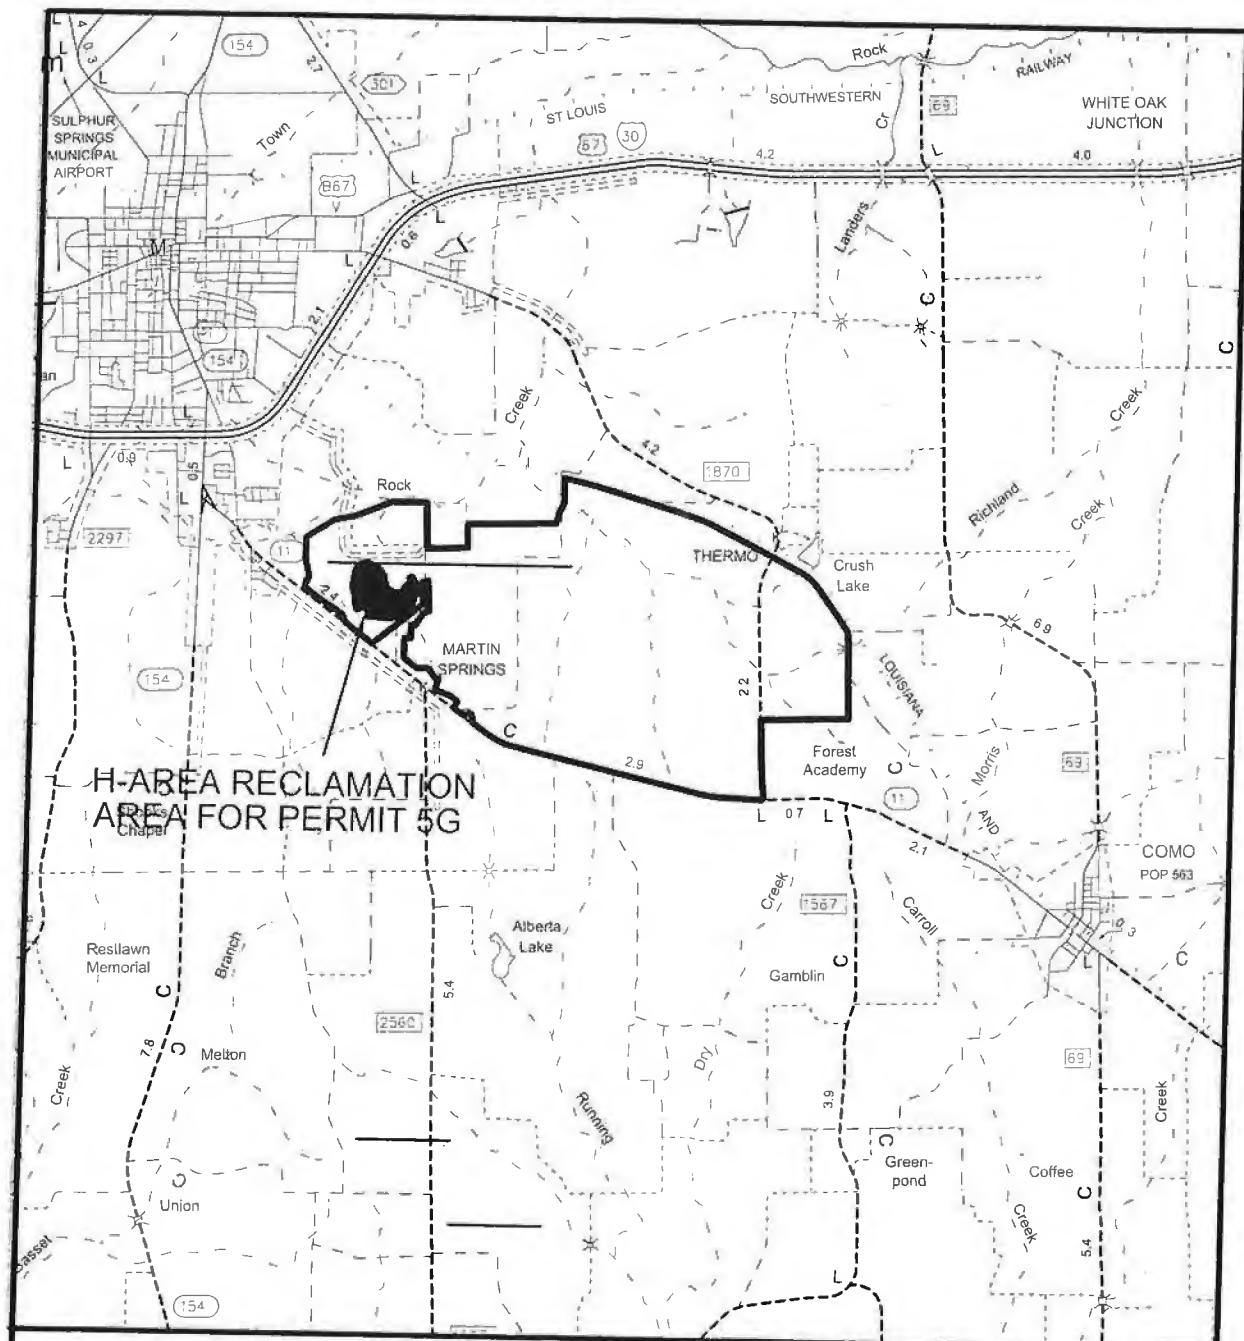

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. Permit 5G is contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5-minute Quadrangle map for Texas.

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2019) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2019). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice. All written comments, objections or requests for public hearing or informal conference on the Application should be directed to:

Re: **Docket No. C19-0020-SC-05-B**
Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34
Permit No. 5G, Monticello Thermo Mine, Hopkins County

Surface Mining Division

Dear Mr. Stroud and Interim Director Schoch:

Please be advised that a Technical Examiner (TE) position has been created within the Hearings Division that will be committed to surface mining and reclamation dockets. The TE will provide technical expertise to assist the Administrative Law Judge presiding over each individual surface mining case.

Mr. Tim Walter, P.G., has been selected to fill the newly created TE position; transitioning out of his previous role as Manager of the Applications and Permits Section within the Surface Mining and Reclamation Division (SMRD), a party to the above-referenced proceeding.

If a party objects to Mr. Walter acting as TE in this matter, it should file any objection **on or before August 21, 2019**. If a party does not object prior to the stated deadline it will be treated as consent. However, if a party has no objection, it is encouraged to file its consent in the docket prior to the deadline.

If a ruling is issued that precludes Mr. Walter from serving in this capacity, a different TE within the Hearings Division will be assigned to this docket. The parties will be notified of any reassignment when appropriate.

Contact for Additional Information – In accordance with 16 Texas Admin. Code §1.7, ex parte communications with Administrative Law Judges, Examiners, and Commissioners are prohibited. If you have any e-mail communications, clerical requests, docketing issues or other questions unrelated to the merits of the above-referenced case, the parties are requested to contact Mr. David Cornett, Hearings Legal Assistant, by email at david.cornett@rrc.texas.gov or telephone at (512) 463-1290 or *Docket Services* by email at docketservices@rrc.texas.gov or telephone at (512) 463-6848. Also, the parties are requested to copy the Service List with regard to any communications sent to the Hearings Division.

Sincerely,

A blue ink signature of Kyle L. Lebby.

Docket No. C18-0015-SC-050-C

Dear Ms. Lange:

Enclosed is a CD containing a copy of Luminant's application for Revision No. 34 to Permit No. 5G, located in Hopkins County, Texas. The application consists of the initial application (one volume) dated August 1, 2017, and Supplemental Document No. 1 (one volume) dated May 6, 2019. The public notice for this permit revision application has not yet been published. I am sending you a copy of this permit revision application now to provide you additional time for review and comment.

Any comments you may have on this application should be filed with Administrative Law Judge Kyle L. Lebby in the Commission's Hearings Division, with a copy provided to the Surface Mining and Reclamation Division.

Sincerely,

A handwritten signature in black ink, appearing to read "Alexander C. Schoch".

Re: Docket No. C19-0020-SC-05-B

Luminant Mining Company, LLC (Luminant)

Surface Mining Division

Application for Revision No. 34

Permit No. 5G, Monticello Thermo Mine, Hopkins County

Dear Mr. Stroud:

By letter dated July 29, 2019, Luminant responded to my review of the draft notice regarding the above-referenced application. In the last sentence of the fourth paragraph of the revised notice addressing postmine land uses, please revise the sentence as follows: "Luminant proposes to revise the postmine land uses within the H-Area as a part of Revision No. 34 and a separate application (Revision No. 35)."

All other requested changes have been made. The revised notice and accompanying map are approved for publication with the requested change stated in the first paragraph of this letter. A revised notice reflecting the additional postmine land use language is not required to be submitted for approval; however, please make the change prior to publication.

If any future supplement or staff recommendation results in any substantive changes to the proposed permit application, applicant and/or staff shall advise the Administrative Law Judge (ALJ) of the changes. This will facilitate the ALJ's determination whether the provisions of the public notice are required to be amended to reflect the changes. The failure to advise the ALJ of substantive changes could potentially result in delaying Commission action on the permit application in the event that an amended public notice is determined to be necessary to address significant substantive changes in the permit application. Please be advised that if publication is delayed or amended due to significant changes in the application or failure to coordinate publication with the Commission, such delay will be attributed to the applicant. This letter may be considered as an interim ruling by the ALJ which is subject to change should proposals in the application change significantly.

Please let me know if you have any questions.

Sincerely,

A blue ink signature of Kyle L. Lebby.

Re: Luminant Mining Company LLC ("Luminant")
Monticello-Thermo Mine, Permit No. 5G
Application for Revision No. 34
Docket No. C19-0020-SC-05-B

Dear Judge Lebby:

Enclosed for your review and approval is a revised draft publication of notice for the above referenced application. This information is being provided in accordance with your letter dated July 24, 2019 and with minor edits proposed by Luminant and the City of Sulphur Springs.

The changes are shown with gray shading to assist in your review. Luminant intends to begin the publication of notice in the *Sulphur Springs News-Telegram* upon receipt of your approval to publish. Upon receipt of approval to publish, publication dates and mailing labels will be provided for your use and files.

Please contact Scott Mills at (214) 875-9090 if you have any questions.

Sincerely,

Sid Stroud

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. C19-0020-SC-05-B

Luminant Mining Company LLC (“Luminant”), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 (“Application”), to the Railroad Commission of Texas Surface Mining and Reclamation Division (“Commission”) for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours.

The proposed changes to the postmine slopes and postmine contours will involve reclaiming and recontouring an existing earthen stockpile that will be covered with a minimum four feet of the approved suitable soil material, thus leaving an elevated land feature approximately 110-feet in height consistent with the executed Development Agreement (“Agreement”) with the City of Sulphur Springs (“City”). Approval of this application would facilitate the execution of a reclamation plan prepared collaboratively with the City in support of long-term plans memorialized in said Agreement, executed by the City and Luminant in a Special City Council Meeting on October 16, 2018.

The executed Agreement is included in Supplemental Document No. 1 to the application and is recorded in the Real Property Records of Hopkins County. It is intended that the City be the ultimate end user of the acreage that is subject of Revision No. 34 after the area has been reclaimed in accordance with all applicable regulations.

This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations and provides general design plans for the H-01 Treatment Pond and H-01 Permanent Impoundment. Luminant proposes to revise the postmine land uses within the H-Area a part of Revision No. 35 that is being processed as a separate application.

A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant’s mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1-volume) and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

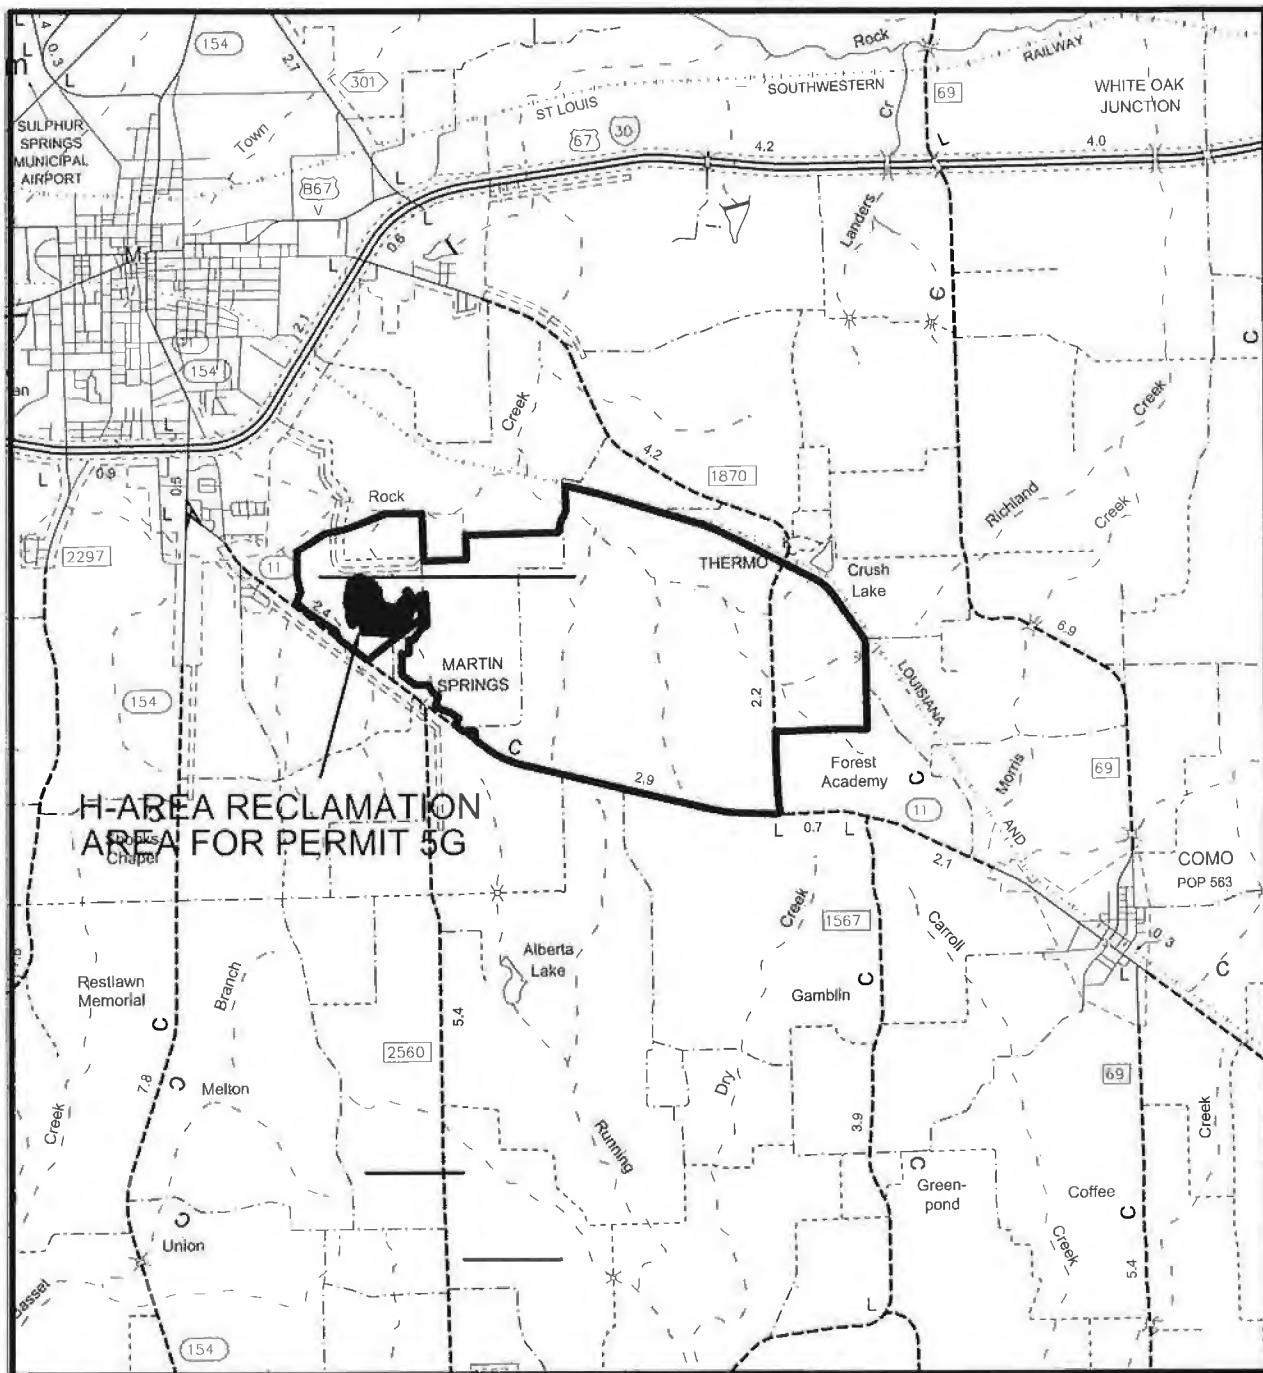

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. Permit 5G is contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5-minute Quadrangle map for Texas.

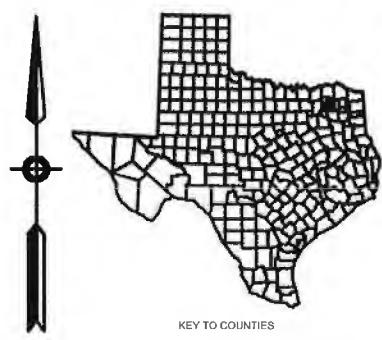

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2019) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2019). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice. All written comments, objections or requests for public hearing or informal conference on the Application should be directed to:

Re: Luminant Mining Company LLC ("Luminant")
Monticello-Thermo Mine, Permit No. 5G
Application for Revision No. 34
Docket No. C19-0020-SC-05-B

Dear Judge Lebby:

Enclosed for your review and approval is a revised draft publication of notice for the above referenced application. This information is being provided in accordance with your letter dated July 24, 2019 and with minor edits proposed by Luminant and the City of Sulphur Springs.

The changes are shown with gray shading to assist in your review. Luminant intends to begin the publication of notice in the *Sulphur Springs News-Telegram* upon receipt of your approval to publish. Upon receipt of approval to publish, publication dates and mailing labels will be provided for your use and files.

Please contact Scott Mills at (214) 875-9090 if you have any questions.

Sincerely,

Sid Stroud

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. C19-0020-SC-05-B

JUL 30 2019

Surface Mining Division

Luminant Mining Company LLC (“Luminant”), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 (“Application”), to the Railroad Commission of Texas Surface Mining and Reclamation Division (“Commission”) for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours.

The proposed changes to the postmine slopes and postmine contours will involve reclaiming and recontouring an existing earthen stockpile that will be covered with a minimum four feet of the approved suitable soil material, thus leaving an elevated land feature approximately 110-feet in height consistent with the executed Development Agreement (“Agreement”) with the City of Sulphur Springs (“City”). Approval of this application would facilitate the execution of a reclamation plan prepared collaboratively with the City in support of long-term plans memorialized in said Agreement, executed by the City and Luminant in a Special City Council Meeting on October 16, 2018.

The executed Agreement is included in Supplemental Document No. 1 to the application and is recorded in the Real Property Records of Hopkins County. It is intended that the City be the ultimate end user of the acreage that is subject of Revision No. 34 after the area has been reclaimed in accordance with all applicable regulations.

This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations and provides general design plans for the H-01 Treatment Pond and H-01 Permanent Impoundment. Luminant proposes to revise the postmine land uses within the H-Area a part of Revision No. 35 that is being processed as a separate application.

A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant’s mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1-volume) and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

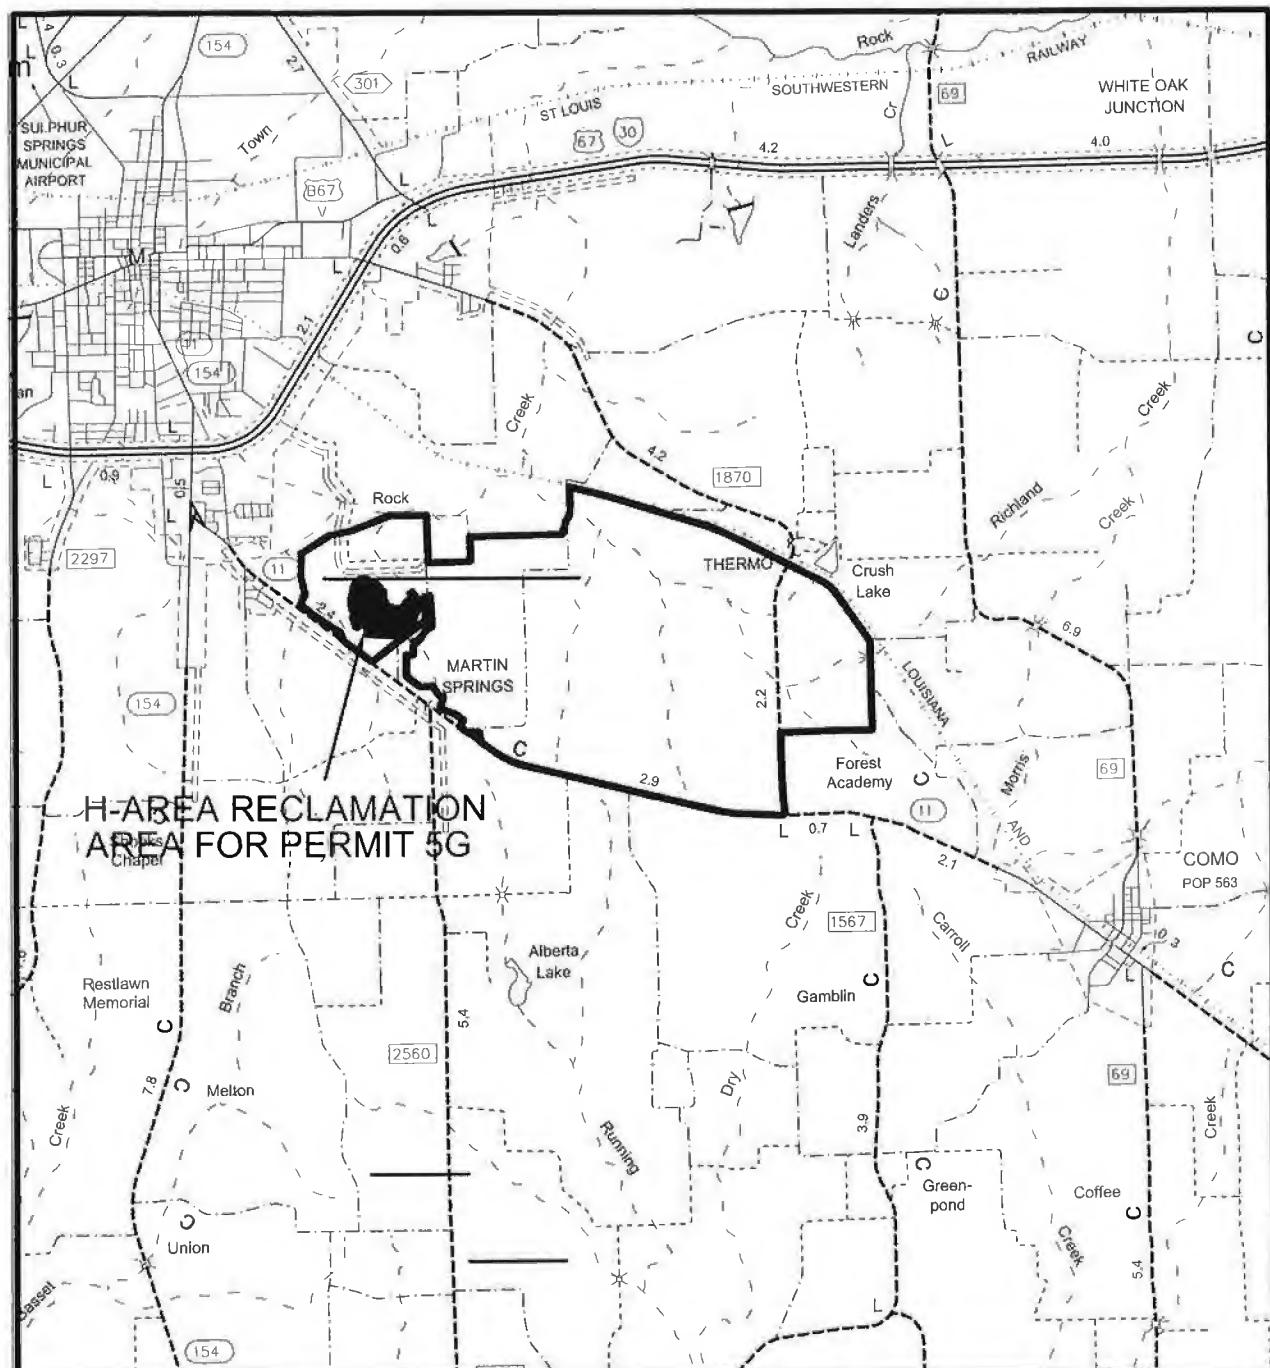

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. Permit 5G is contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5-minute Quadrangle map for Texas.

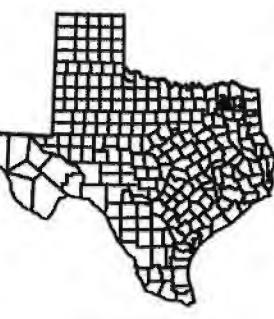

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2019) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2019). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice. All written comments, objections or requests for public hearing or informal conference on the Application should be directed to:

Re: **Docket No. C19-0020-SC-05-B** Surface Mining Division
Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34
Permit No. 5G, Monticello Thermo Mine, Hopkins County

Dear Mr. Stroud:

By letter dated July 24, 2019, I issued correspondence in the above-referenced docket that included a review of the draft public notice based on a document that was transmitted with the application but was not contained in Supplement No. 1. Enclosed is the draft notice that the previous review was based on. I regret any inconvenience this may have caused.

It is suggested the enclosed draft that includes a map depicting the area be used in place of the draft provided in Supplement No. 1. If Luminant elects to use the enclosed draft, please make the changes recommended in my prior correspondence and include the information provided in the third to last paragraph of the draft submitted in Supplement No. 1 (i.e., the paragraph that follows the address block at the top of the second page in Section 123).

Alternatively, I will provide a comprehensive review of the draft in Supplement No. 1 at Luminant's request.

Please let me know if you have any questions.

Sincerely,

Kyle L. Lebby, Administrative Law Judge
Hearings Division

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. _____

Luminant Mining Company LLC (“Luminant”), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 (“Application”), to the Railroad Commission of Texas Surface Mining and Reclamation Division (“Commission”) for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours. This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations. A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant’s mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1 Volume) and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad’s southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. The permit renewal area is

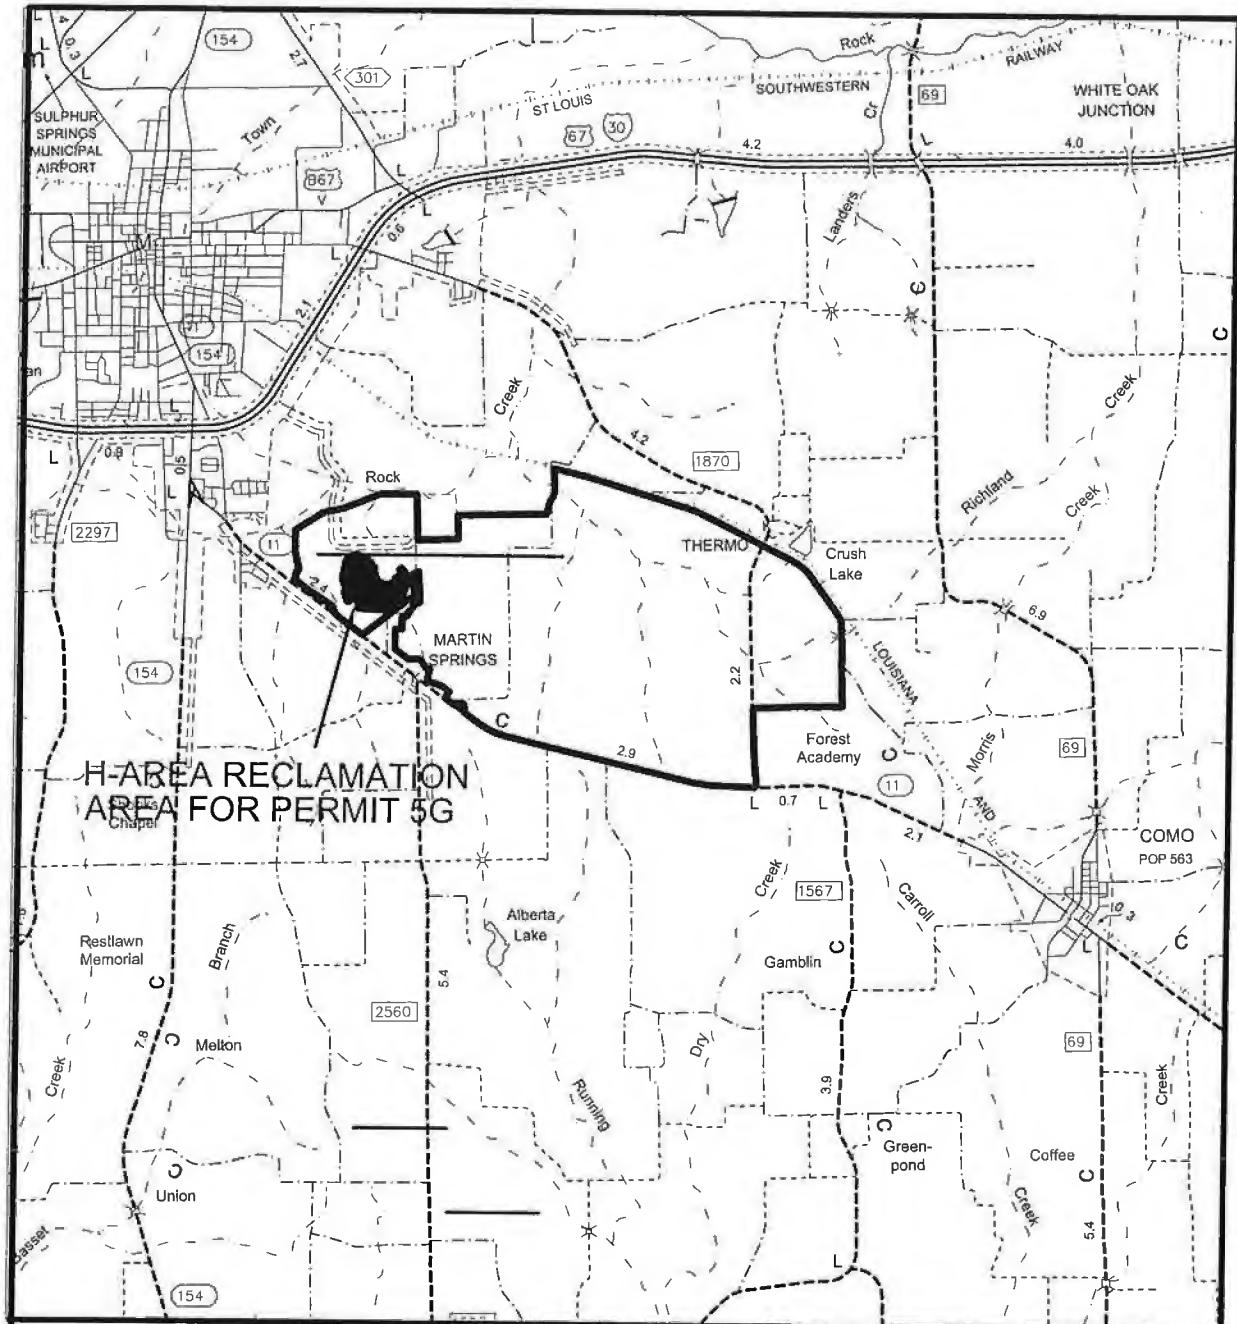

contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5 minute Quadrangle map for Texas.

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2018) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2018). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Revision No. 34 (H-Area Reclamation Plan)
Requested Information

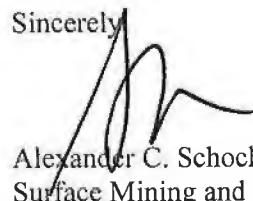

Dear Judge Lebby:

I am in receipt of your letter dated July 24, 2019, in which you requested Staff to provide the current status and briefly summarize the processing history of Revision No. 35. You also requested that Staff file a copy of the letters referenced in my July 10, 2019, letter transmitting the Revision No. 34 application to the Hearing Division. Pursuant to instructions in your letter, please note that:

- 1) The processing history of Revision No. 35 is as follows:
 - a) Revision No. 35 was submitted by letter dated March 14, 2018;
 - b) Staff provided comments and terminated Revision No. 35 by letter dated April 6, 2018;
 - c) Luminant requested our reconsideration of the termination of Revision No. 35 by letter dated April 30, 2018; and
 - d) After a May 15, 2018, meeting with Luminant, SMRD rescinded the termination of Revision No. 35, by letter dated May 15, 2018.
- 2) The requested letters regarding Revision No. 34 are attached (Staff's letter dated December 5, 2017, Luminant's letter dated February 15, 2018, Staff's letter dated September 21, 2018, and Luminant's letter dated June 26, 2019).

Copies of this letter and attachments have been transmitted in accordance with the attached Certificate of Service.

Sincerely,

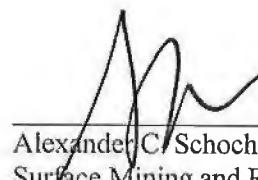

Alexander C. Schoch, Interim Director

RAILROAD COMMISSION OF TEXAS

HEARINGS DIVISION

CONSENT TO ELECTRONIC SERVICE AND NOTIFICATION OF DOCUMENTS, RULINGS, DECISIONS, AND ORDERS

Effective September 1, 2015, Section 2001.142 (Notification of Decisions and Orders) of the Texas Government Code was amended to allow a state agency to notify each party to a contested case of any decision or order of the agency, if agreed to by the party to be notified, by electronic means sent to the current e-mail address of the party's attorney of record or of the party if the party is not represented by counsel. Tex. Gov't Code § 2001.142(a)(2).

Current rules of the Railroad Commission of Texas ("Commission") require the Commission to serve "a pleading or document" by "hand-delivering a copy to the person to be served, or by first class, certified, or registered mail, commercial delivery service, fax, email, or by such other manner as the Commission may require." Commission Practice and Procedure rules, §1.45(e)(2) and §1.45(b). According to §1.45(b)(1)(D), "Service by email may be used if the person to be served consents to be served by email pursuant to §1.27 or §1.32 of this title (relating to Parties and Authorized representatives, and Form and Content of Pleadings, respectively). If the person consents to be served by email, the person affirmatively consents to the release and disclosure of the email address. Email service is complete on the date of the email transmission. An email received after 5 p.m. local time of the recipient shall be deemed served on the following business day."

Completion of this form is optional

In lieu of service and notification by mail, Sid Stroud (party name or attorney)
 on behalf of Luminant Mining Company LLC hereby agrees and
 consents to electronic service and notification of all documents, rulings, decisions, and orders from the Railroad
 Commission of Texas in Docket No. C19-0020-SC-05-B by the following electronic means:

[] E-mail at: sid.stroud@luminant.com

Re: **Docket No. C19-0020-SC-05-B**

Luminant Mining Company, LLC (Luminant)
Application for Revision No. 34

Surface Mining Division

Permit No. 5G, Monticello Thermo Mine, Hopkins County

Dear Mr. Stroud and Interim Director Schoch:

On July 10, 2019, I received the above-referenced application, including Supplement No. 1, submitted by Luminant. The above-referenced docket number has been assigned to the application for Revision No. 34 and should be used in all correspondence in this matter. I will serve as administrative law judge for this proceeding and have reviewed the draft notice included in Section 123 of Supplement No. 1. The following are comments regarding the draft notice:

1. The assigned docket number, C19-0020-SC-05-B, should be added to the title of the draft notice and to the address block on the second page of the draft notice. Please add my name as administrative law judge on the second page.
2. Following the second sentence of the draft notice, state that the proposed changes to the postmine slopes and postmine contours would allow for an approximately 110-foot high stockpile of unsuitable material that is currently on the acreage to remain in place and that Luminant proposes to cover the stockpile with at least four feet of suitable material.
3. In the third sentence of the first paragraph, as reflected in Supplement No. 1, state that general design plans for the H-01 Treatment Pond and H-01 Permanent Impoundment are included in the Application.
4. As reflected in the Introduction and Errata Sections of Supplement No. 1, include information that approval of the revision Application would facilitate the execution of a reclamation plan prepared collaboratively with the City of Sulphur Springs, Texas ("City") in support of long-term plans memorialized in a Development Agreement ("Agreement") executed by the City and Luminant in a Special City Council Meeting on October 16, 2018. Also, state that an executed copy of the Agreement is included in Supplement No. 1 to the Application and is recorded in the Real Property Records of Hopkins County. Further, include a statement that it is intended that the City be the ultimate end user of the acres that are the subject of Revision No. 34 after the area has been reclaimed in accordance with all applicable regulations.
5. Include a statement that Luminant proposes to revise the postmine land uses within the H-Area as part of Revision No. 35 that is being processed as a separate application. [Note: Staff is requested to provide the current status and briefly summarize the processing history of Revision No. 35. If this application has been approved, please file a copy of Staff's approval letter and review memorandum in the docket.]

6. In the last sentence of the fourth paragraph, cut “renewal” after “permit” and prior to “area” given the application does not request renewal of Permit No. 5G.
7. In the second to last paragraph, please update the citation to the Act and Regulations from “(Vernon Supp. 2018)” and “(Thomson West 2018)” to “(Vernon Supp. 2019)” and “(Thomson West 2019)”, respectively.

A revised notice should be submitted for approval prior to publication. Pursuant to past Commission practice, once the notice is approved, Luminant may decide when notice of application is published in accordance with §12.207(a) of the Regulations. In the Errata Section of Supplement No. 1 dated May 6, 2019, Luminant provides responses to Staff’s concerns related to the completeness of the application (A-1 through A-5) but challenges Staff’s position on several components and does not provide information addressing various sections and/or subsections of the permit [e.g., Sections 119, 125, 144, 150, 154 and Table 125(a)-1]. Though the SMRD-Director has declared the application administratively complete, Luminant is advised that an amended public notice may be required should substantive changes to the subject application occur after notice is published.

The Commission provides notification of applications for a significant revision to a permit by mail to state and federal agencies under §12.207(b)-(c) of the Regulations, and to landowners within and adjacent to the permit boundary by Commission policy. To facilitate notification performed by the Commission, please provide a current list of landowners, within and adjoining the permit boundary, that includes owners of easements, oil and gas operators and mineral interest owners, and any other real estate interests. Please send the requested landowner list as a MS Word document to Mr. David Cornett at David.Cornett@rrc.texas.gov. A mailing address should be provided for each person or entity to be notified. Please compile the list in single column form and include a single space following the address for each individual recipient. Also, please provide a current ownership map of the permit area and adjacent tracts and any additional maps, as necessary, to depict any occupied dwellings or other structures, if any, located within 300 feet of any proposed or approved operations.

As stated above, submittal of a revised draft public notice is required prior to approval for publication. Once approved, the applicant may determine the date of publication of the notice; however, I would request you notify me as soon as a date of publication is decided upon in order to coordinate notifications performed by the Commission.

Additionally, Staff’s July 10, 2019 letter transmitting the subject application to the Hearings Division references its review letters dated December 5, 2017 and September 21, 2018. Further, Luminant’s letter dated February 15, 2018, providing additional information, and letter dated June 26, 2019, requesting Revision No. 34 be processed as a significant revision, are referenced in Staff’s transmittal letter. Staff is requested to file a copy of these letters in the docket at its earliest convenience. Additionally, as stated in Item 5 above, please file information regarding Revision No. 35.

I have enclosed a form, CONSENT TO ELECTRONIC SERVICE AND NOTIFICATION OF DOCUMENTS, RULINGS, DECISIONS, AND ORDERS. The parties are requested to consider consenting to electronic service in the docket. If a party elects to consent to electronic service, please file the completed form at your earliest convenience. The form may be provided via email addressed to Mr. Cornett with all other parties copied.

Please let me know if you have any questions.

Sincerely,

Kyle L. Lebby, Administrative Law Judge
Hearings Division

RAILROAD COMMISSION OF TEXAS

HEARINGS DIVISION

CONSENT TO ELECTRONIC SERVICE AND NOTIFICATION OF DOCUMENTS, RULINGS, DECISIONS, AND ORDERS

Effective September 1, 2015, Section 2001.142 (Notification of Decisions and Orders) of the Texas Government Code was amended to allow a state agency to notify each party to a contested case of any decision or order of the agency, if agreed to by the party to be notified, by electronic means sent to the current e-mail address of the party's attorney of record or of the party if the party is not represented by counsel. Tex. Gov't Code § 2001.142(a)(2).

Current rules of the Railroad Commission of Texas ("Commission") require the Commission to serve "a pleading or document" by "hand-delivering a copy to the person to be served, or by first class, certified, or registered mail, commercial delivery service, fax, email, or by such other manner as the Commission may require." Commission Practice and Procedure rules, §1.45(e)(2) and §1.45(b). According to §1.45(b)(1)(D), "Service by email may be used if the person to be served consents to be served by email pursuant to §1.27 or §1.32 of this title (relating to Parties and Authorized representatives, and Form and Content of Pleadings, respectively). If the person consents to be served by email, the person affirmatively consents to the release and disclosure of the email address. Email service is complete on the date of the email transmission. An email received after 5 p.m. local time of the recipient shall be deemed served on the following business day."

Completion of this form is optional

In lieu of service and notification by mail, _____ (party name or attorney)
 on behalf of _____ hereby agrees and
 consents to electronic service and notification of all documents, rulings, decisions, and orders from the Railroad
 Commission of Texas in Docket No. _____ by the following electronic means:

[] E-mail at: _____

Authorized by: _____ (signature)

_____ (print name)

_____ (firm)

By requesting electronic service, all orders, proposals for decision, and other documents and communications to me in this docket will be provided to me by e-mail at the address set forth above. I will no longer receive paper copies of any documents in this docket. I also understand and agree that it is my responsibility to inform Docket Services and other parties of any changes to my e-mail address. By accepting the terms of this service my e-mail address will be shown on the service list of this docket and available to the Commission, other parties and will become part of this public record; See Tex Gov't Code §552.137. I am responsible for ensuring that my e-mail filters and settings allow the delivery of e-mails from the RRC and all other parties to this case. **If the pleading contains 10 or fewer pages including exhibits, it may be filed by fax, email, or other approved electronic transmission with the Docket Services Section.** If a party or authorized representative elects to file a pleading by email, the party or authorized representative agrees to be served by email and affirmatively consents to the release and disclosure of the email address.

RAILROAD COMMISSION OF TEXAS

SURFACE MINING AND RECLAMATION DIVISION

MEMORANDUM

TO: General Counsel
Office of General Counsel

FROM: Interim Director
Surface Mining and Reclamation Division

RE: Luminant Mining Company, LLC (Luminant)
Monticello Thermo Mine, Permit No. 5G
Revision No. 34
H-Area Reclamation Plan
Request for Staff Attorney

DATE: July 24, 2019

By letter dated July 31, 2017, Luminant submitted the subject application to revise the postmine topography of portions of H Area and to request approval of a proposed H-Area reclamation plan, which includes general design plans for H-03 Permanent Impoundment and a Form SMRD-1C updating the mailing addresses and listing of individuals who are authorized to act on behalf of Luminant.

In response to Staff's letter dated December 5, 2017, in which Luminant was notified of SMRD's determination that the application was a significant revision to the approved permit under 16 TEXAS ADMIN. CODE §12.226(a), Luminant provided additional information by letter dated February 15, 2018. In response to SMRD's subsequent review letter dated September 21, 2018, notifying Luminant that the earlier determination still stood, Luminant provided letter dated May 6, 2019. In this May 6, 2019, letter, Luminant again requested that the decision regarding significant processing be rescinded.

Upon further review of the file for this application and Luminant's May 6, 2019, letter, I continued to find that Luminant proposes changes to the reclamation plan in the application that are likely to significantly change the effect the mining operation would have on either those persons impacted by the permitted operation or on the environment [16 TEXAS ADMIN. CODE §12.226(a)(1)]. By letter dated June 26, 2019, Luminant formally requested that Revision No. 34 be processed as a significant revision to the Monticello Thermo Mine Permit No. 5G.

By letter dated July 10, 2019, SMRD determined that the application was administratively complete and transferred it to the Commission's Hearings Division for docketing in accordance with 16 TEXAS ADMIN. CODE §1.24 and §1.41 (*General Rules of Practice and Procedure*). Staff expects to file a TA on or before completion of the 120-day statutory review period. Therefore, I request that legal counsel be assigned to represent Staff on all matters relating to this Monticello Thermo Mine, Permit No. 5G, Revision No. 34 (H-Area Reclamation Plan).

A copy of the application is attached. Please contact Martin Alvarez, Permit Coordinator for the technical review of this application, at 512-463-2499, to discuss the application and associated correspondence.

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. _____

Luminant Mining Company LLC (“Luminant”), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 (“Application”), to the Railroad Commission of Texas Surface Mining and Reclamation Division (“Commission”) for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours. This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations. A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant’s mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1 Volume) and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. The permit renewal area is

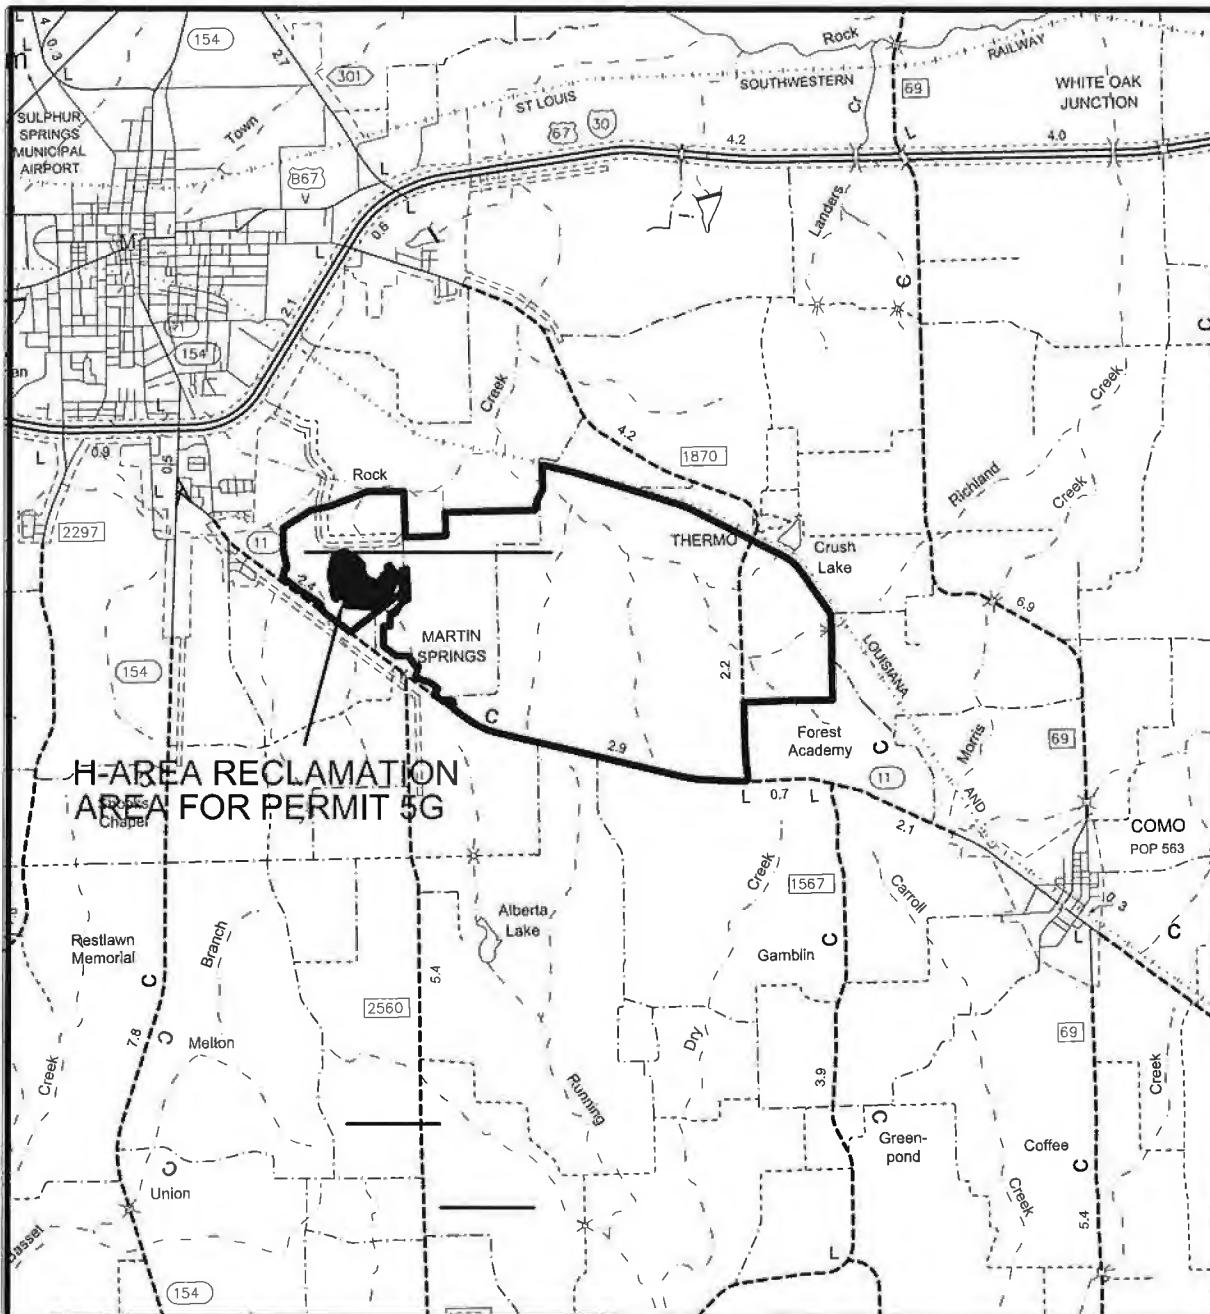

contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5 minute Quadrangle map for Texas.

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2018) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2018). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice.

All written comments, objections or requests for public hearing or informal conference on the Application should be directed to:

RE: Luminant Mining Company LLC (Luminant)
Monticello Thermo Mine, Permit No. 5G
Revision No. 34
H-Area Reclamation Plan
Determination of Administrative Completeness

Dear Ms. Lewis:

Enclosed is a 1-volume application from Luminant received on July 31, 2017, and 1-volume Supplemental Document No. 1 (SD1) for the subject application to revise the postmine topography of portions of the H Area and to request approval of a proposed H-Area reclamation plan, which includes general design plans for H-03 Permanent Impoundment and a Form SMRD-1C updating the mailing addresses and listing of individuals who are authorized to act on behalf of Luminant.

In response to Staff's letter dated December 5, 2017, in which Luminant was notified of SMRD's determination that the application was a significant revision to the approved permit under 16 TEXAS ADMIN. CODE §12.226(a), Luminant provided additional information by letter dated February 15, 2018. In response to SMRD's subsequent review letter dated September 21, 2018, notifying Luminant that the earlier determination still stood, Luminant provided letter dated May 6, 2019. In this May 6, 2019, letter, Luminant again requested that the decision regarding significant processing be rescinded.

Upon further review of the file for this application and Luminant's May 6, 2019, letter, I continue to find that Luminant proposes changes to the reclamation plan in the application that are likely to significantly change the effect the mining operation would have on either those persons impacted by the permitted operation or on the environment [16 TEXAS ADMIN. CODE §12.226(a)(1)]. By letter dated June 26, 2019, Luminant formally requested that Revision No. 34 be processed as a significant revision to the Monticello Thermo Mine Permit No. 5G.

I have determined that the application is administratively complete and am transferring it to the Hearings Division for processing in accordance with 16 TEXAS ADMIN. CODE (TAC) §1.24 and §1.41 of the Commission's *General Rules of Practice and Procedure*. Please assign an Administrative Law Judge to review the draft public notice and provide any comments to Luminant within 10 days. The name and address of the applicant's representative is:

RE: Luminant Mining Company LLC ("Luminant")
Monticello-Thermo Mine, Permit No. 5G
Revision Application No. 34
H-Area Reclamation Plan

Dear Mr. Schoch:

Luminant submitted Revision Application No. 34 to the Commission by letter dated July 31, 2017 seeking approval for a revision to the H-Area reclamation plan at the Monticello-Thermo Mine. By letter dated May 6, 2019 Luminant provided Supplemental Document No. 1 in response to Staff's technical review comment letter dated September 21, 2018. In your May 29, 2019 letter, Staff made a finding that Luminant's proposed changes to the reclamation plan could potentially impact adjacent landowners and the environment. Further, the Commission maintains that Revision Application No. 34 is a significant departure from the approved reclamation plan and should be processed as a significant permit revision.

While Luminant disagrees with Staff's finding of potential impacts to adjacent landowners and the environment, further consultation with Staff review team members on June 24, 2019 provided additional clarification yielding compelling opinions that the application could be efficiently processed through the significant revision review process.

Luminant hereby requests that Staff process the subject application as a significant revision to Permit 5G. Accordingly, enclosed is a draft public notice and associated location map for the proposed H-Area reclamation plan. Please note that Form SMRD-1C was provided to Staff in the original Revision Application No. 34 dated August 1, 2017.

Please contact Scott Mills at (214) 875-9090 if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Sid Stroud". Below the signature, the name "Sid Stroud" is printed in a smaller, sans-serif font.

PUBLIC NOTICE
NOTICE OF APPLICATION FOR
REVISION OF SURFACE MINING PERMIT No. 5G
Surface Mining Division Monticello-Thermo Mine, Revision Application No. 34
Luminant Mining Company LLC
Docket No. _____

Luminant Mining Company LLC ("Luminant"), 6555 Sierra Drive, Irving, Texas 75039 has submitted a permit revision application titled Monticello-Thermo Mine, Permit No. 5G, Revision Application No. 34 ("Application"), to the Railroad Commission of Texas Surface Mining and Reclamation Division ("Commission") for approval. Revision Application No. 34 proposes to revise the reclamation plan for an approximate 85-acre area of the H-Area within the Monticello-Thermo Mine by updating post mine slopes and post mine contours. This application also shows the revised location of the H-03 Permanent Impoundment as a result of ceasing mining operations. A Form SMRD-1C is also included within Revision Application No. 34 to update Luminant's mailing address and the list on names of individuals who are authorized to act on behalf of the applicant. Permit 5G, issued on December 14, 2010, contains approximately 4,506 acres and is located in Hopkins County, Texas.

Copies of the Application are on file with and available for public inspection at the agencies and locations identified below. A copy of the complete application dated August 1, 2017 (1-volume) and Supplemental Document No. 1 dated May 6, 2019 (1-volume) may be inspected in the main office of the Railroad Commission of Texas at 1701 North Congress, William B. Travis Building, Austin, Texas, or at the office of the Hopkins County Clerk, Hopkins County Courthouse Annex, 128 Jefferson Street E., Sulphur Springs, Texas, 75482.

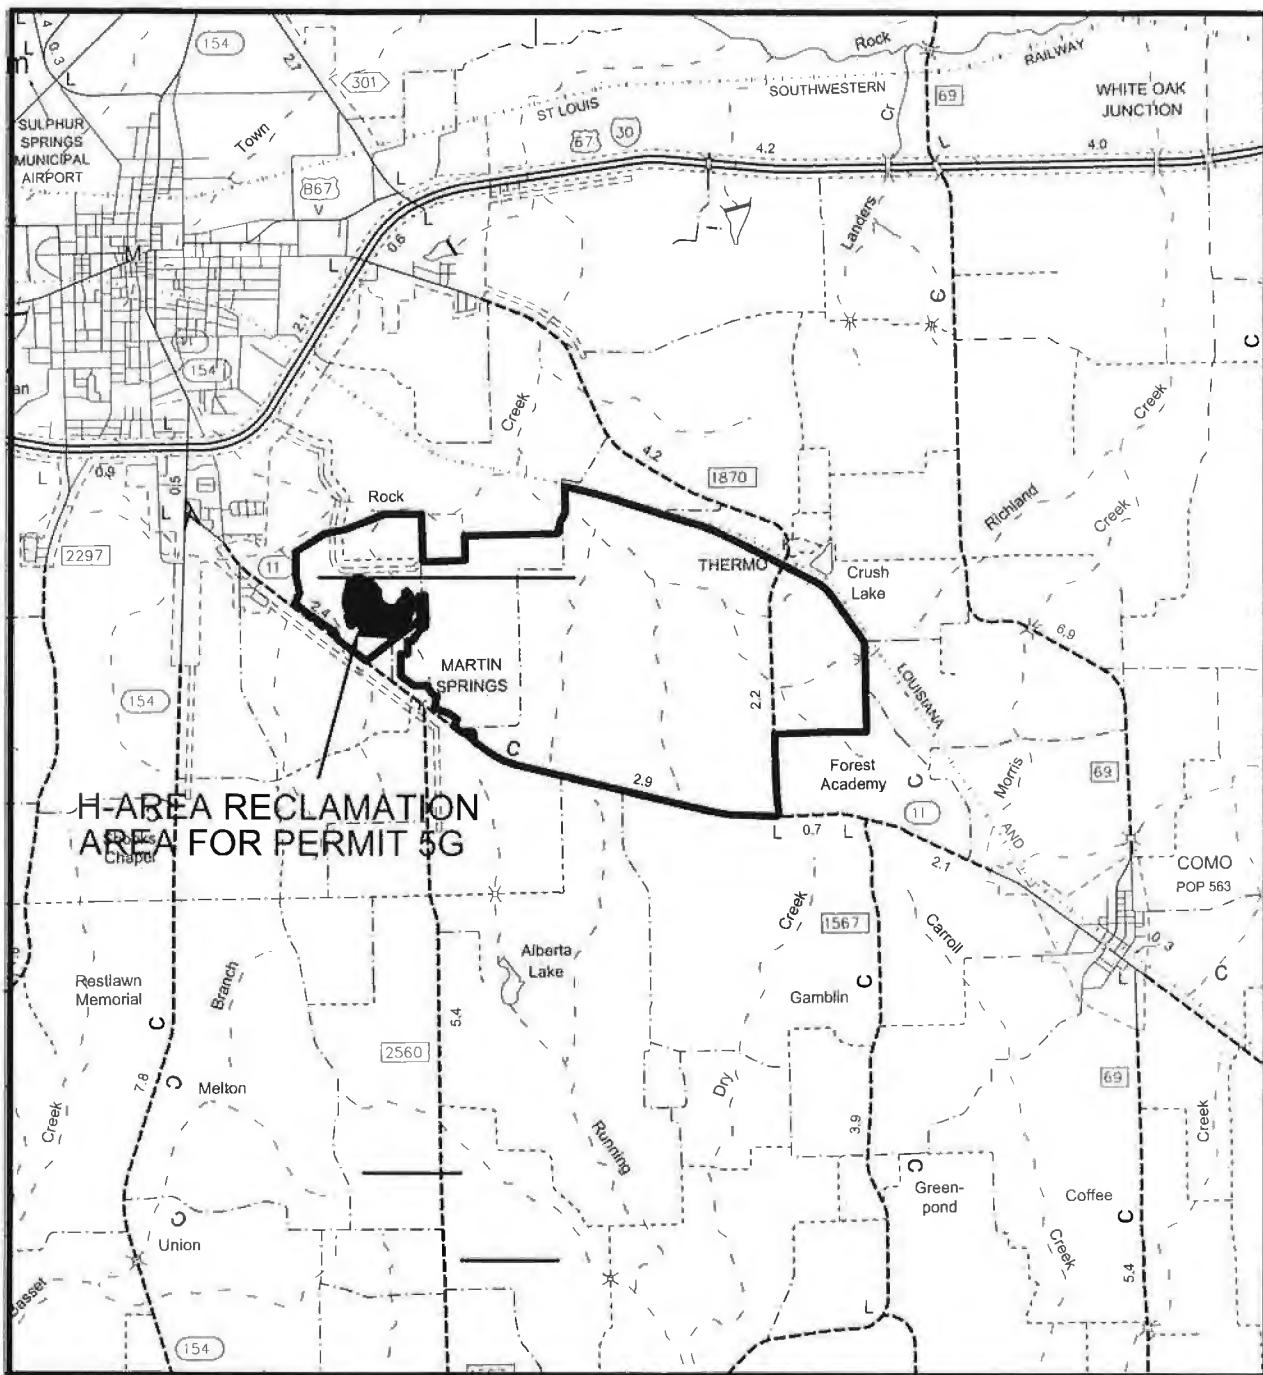

This permit application may be supplemented from time to time during the review process, with supplemental information placed in separate volumes and filed for public inspection. Interested persons should contact the Administrative Law Judge or continue to check the public copies of the application to determine the current status.

As depicted on the location map included with this public notice, Permit 5G lies approximately three miles southeast of the town of Sulphur Springs, Texas. The permit boundary follows State Highway No. 11 from the intersection of FM 1870 westward to the intersection of Hopkins County Road No. 2309 where it meanders westward along property tract boundaries to a point near the intersection of State Highway No. 11 and County Road No. 2307. The boundary then generally follows County Road No. 2307 northward for approximately 0.7 mile where it turns and runs southwestward until it intersects State Highway No. 11. The boundary then generally follows State Highway No. 11 northwestward approximately 0.7 mile where it turns north and then eastward before dropping southward to intersect CR 2307. The boundary then moves northeastward to again intersect CR 2309. It then follows CR 2309 northward to intersect the Louisiana-Arkansas Railroad where it follows the railroad's southern right-of-way eastward to a point approximately one mile past the intersection of FM 1870. The boundary then drops southward for approximately 0.7 miles and then moves westward to again intersect FM 1870 where it follows FM 1870 southward to State Highway No. 11. Permit 5G is contained within the "Sulphur Springs S.E." U.S. Geological Survey 7.5 minute Quadrangle map for Texas.

The Application is made pursuant to the Texas Surface Coal Mining and Reclamation Act, TEX. NAT. RES. CODE ANN. Chapter 134 (Vernon Supp. 2018) and the Coal Mining Regulations, Texas Railroad Commission, TEX. ADMIN. CODE, Title 16, Part 1, Chapter 12 (Thomson West 2018). Notice will be published once a week for four consecutive weeks. Requests for public hearing must be submitted within 45 days of the last date of publication of this notice. Interested persons are invited to submit written comments on the application within 30 days of the last date of publication of this notice. RE: Monticello-Thermo Mine, Permit No. 5G
Revision No. 34
H-Area Reclamation Plan

Dear Mr. Stroud:

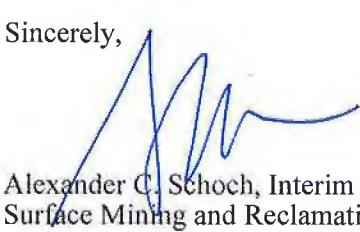

By letter dated July 31, 2017, you submitted the subject application to revise the postmine topography of portions of the H Area and to request approval of a proposed H-Area reclamation plan, which includes general design plans for H-03 Permanent Impoundment and a Form SMRD-1C updating the mailing addresses and listing of individuals who are authorized to act on behalf of Luminant. You provided a \$500 revision-application filing fee with the initial application.

In response to my letter dated December 5, 2017, in which you were notified of SMRD's determination that the application was a significant revision to the approved permit under 16 TEXAS ADMIN. CODE §12.226(a), you provided additional information by letter dated February 15, 2018. In response to SMRD's subsequent review letter dated September 21, 2018, notifying you that the earlier determination still stood, you provided your letter dated May 6, 2019. In this letter, you again request that the decision regarding significant processing be rescinded.

Upon further review of the file for this application and your May 6 letter, I continue to find that Luminant proposes changes to the reclamation plan in the application which are likely to significantly change the effect the mining operation would have on either those persons impacted by the permitted operation or on the environment [16 TEXAS ADMIN. CODE §12.226(a)(1)]. None of the information furnished to date suggests that this revision is not significant. Accordingly, please advise me by June 14, 2019, as to whether Luminant will proceed with the approved reclamation plan or undertake some other course of conduct with regard to the revision application.

Processing of the application, which was suspended as noted in SMRD's January 19, 2018, letter will proceed once your response is provided. Please contact Mr. Martin Alvarez, coordinator for review of this application, should you have any questions at 512-463-2499.

Sincerely,

Alexander C. Schoch, Interim Director
Surface Mining and Reclamation Division
